Date: 27-8-2019, **Tuesday**, **Venue:** Seminar Hall, Near CERTC, Principal’s office building, Medical college Thiruvananthapuram

Dear Sir/Madam,

As you are aware, health economics is a developing academic discipline which has not become enough popular among the clinical faculty. Though applications of principles of economics is the need of the hour, most of the clinicians are not aware of the quantitative analytical framework for this, especially fundamental principles of costing and outcome evaluation.

In this context, it is our proud pleasure to invite you for this long expected program.

Kindly come and make the discussions more fruitful by your valuable presence and active involvement.
