

KUHS Community Extension Programs conducted through Certified Faculty of Affiliated Institutions

The KUHS has conducted Certificate Programs under its Schools and Centres and have completed Certification of several faculties under different streams. The certificate programs are envisaged to broaden the horizons of knowledge of faculty across their areas of specialisation. In order to make the programs more effective it is proposed that each certified faculty member may conduct one or two outreach programs (Community Extension Activities) which benefits the community which could be ordinary people or school/college students. The KUHS will provide Rs.1000/-per program for resource material creation, publicity and refreshments to the participants upon production of receipts and vouchers as per rules. Please contact the respective Deans office for more details.
